

# NOOR MUSTAFA

Frontend developer

**Phone:** 0326 0682807  
**Email:** ujjannoormustafa123@gmail.com  
**Website:** noormustafa.vercel.app

## SUMMARY

Frontend developer with **2 years** of experience in building user-centric web applications that solve real-world problems.

- Developed a **school management system** used by **400+** students, teachers, and administrators, featuring data analysis tools and interactive graphs.
- Created an **AI-based food ordering** web app for client used in a cafe in Miami, USA, with admin and customer dashboards for real-time ordering and management.
- Built **50+** small and large projects locally and as a freelancer, including websites, e-commerce platforms, and interactive web apps.

## WORK EXPERIENCE

**Lead Frontend Developer - Rehan Foundation** Sep 2024 - Present

- Lead a frontend development team in building a comprehensive school management system with five key dashboards: Admin, Principal, Teacher, Student, and Parent.
- Designed and implemented a complete system, including user roles, interactive features, and seamless navigation across different dashboards.
- Integrated features such as payment systems, attendance tracking, and grade management to enhance the functionality of the platform.

**Front-end developer - Fastech system** May 2023 - Oct 2023

- Integrated REST APIs for seamless frontend-backend communication.
- Collaborated with the team to deliver high-quality features on time.
- Developed responsive admin and customer dashboards with interactive interfaces.

**Front-end developer Intern - Fastech system** April 2023 - May 2023

- Developed dynamic user interfaces with React.js during the internship.
- Ensured responsive design for optimal user experiences across devices.
- learnt about Git and GitHub.
- Quickly adapted to React and Next.js concepts, showcasing a commitment to learning new technologies.
